Who Was Pablo Picasso? Pablo Picasso was a Spanish painter, sculptor, printmaker, ceramicist and stage designer considered one of the greatest and most influential artists of the 20th century. Picasso is credited, along with Georges Braque, with the creation of Cubism.

Cubism is a style of art which aims to show all of the possible viewpoints of a person or an object all at once.

When you look at a person
what do you see?

hair

eyebrows

eyes

ears

chin

nose

Mouth

Picasso looked at people differently.

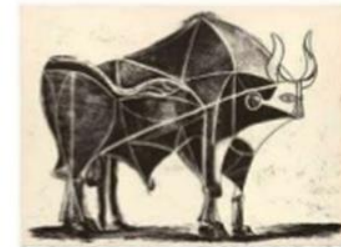

He wanted to capture all their features,
from all angles, together at once.

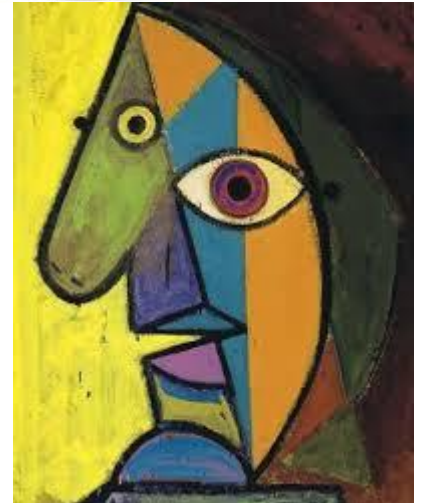

This is cubism in its simplest form.

Work that is fragmented to show all angles that we know is there, we just can't see them all at once.
