

Good morning Primary,

I hope you all had a wonderful wild weekend! I have been really inspired by the work of Marcus Rashford last week, who campaigned so that the government would provide free school meals to those who need them over the summer. With his work and passion the government changed their mind! Many boys at Millgate will now benefit from this.

Speaking to the BBC, Marcus said: "It's not so much about my family anymore, because obviously the situation has changed. I just don't want people to go through the same things. It's important to understand where I came from and my background and then it's quite simple really the reason why I would try and help people that are in that situation."

"My story to get here is all-too-familiar for families in England: my mum worked full-time, earning minimum wage to make sure we always had a good evening meal on the table. But it was not enough. The system was not built for families like mine to succeed, regardless of how hard my mum worked", the letter said.

Now that the government has changed its mind, Rashford said his mum is very proud: "She's rang me about 10 times today", he said.

It wasn't just Rashford's mum who sent him messages of support, rival football teams such as Manchester City and Liverpool congratulated the United striker.

"It's always been football, football, football and sometimes there are situations that come up, it puts football aside for a moment", Rashford said. "This was one of those situations really, that's the kind of support you want for the country to be a better place."
