

The challenge

Super Movers Super Celebration

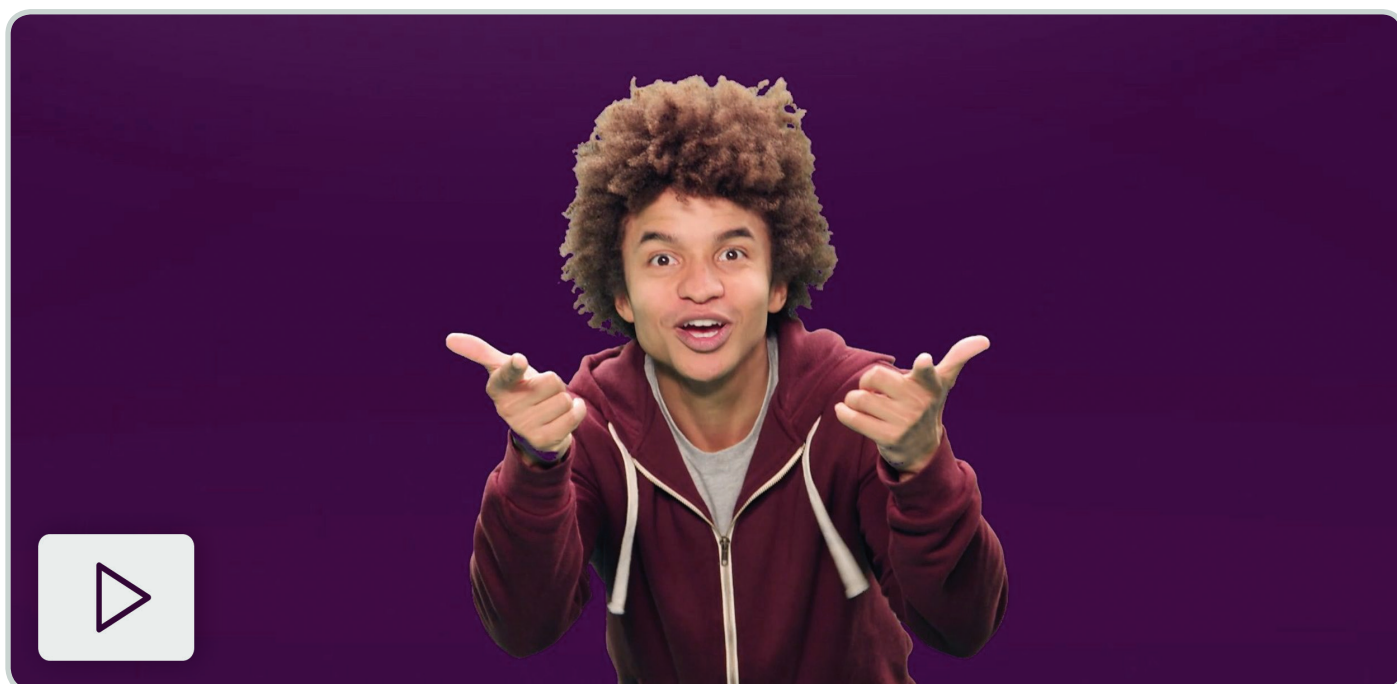

When something great happens how do you react?
Do you jump up and down, punch the air, clap your hands, do a happy dance?

We all have different ways of expressing triumph - including Premier League footballers, who have been known to display some great goal celebrations.

The Premier League season restarted on Wednesday 17 June and we would like your family to create a special 'Super Move' to celebrate your favourite teams being back in action. It can be any kind of movement, or sequence of movements, that you like. Feel free to use props, costumes or an interesting background to make it more exciting!

Watch the Super Moves in the video below to get some inspiration for creating your own celebration - and you can find lots more fun routines on the **Super Movers website**.

Make sure you have plenty of space to create your move and don't forget to film it and share it with us by tagging **@PLCommunities** and **#PLPrimaryStars** or email it to **PLPrimaryStars@premierleague.com**.

- Only parents or teachers can submit videos. Remember not to include music that you did not create yourself.
- Think carefully about what is uploaded or shared on social media platforms.
- Keep personal information private and take care not to give away too much identifiable information in photos and videos.
- Make sure not to feature other people in your videos, apart from family members.
- It is important to talk to your child regularly about online safety. Let them know they can come to you or another trusted adult if they're feeling worried, pressured, upset or unsafe.
